FEATURES AND BENEFITS

- **Supplied Flat Pack:** Quick and easy to assemble.
- **Adjustable Feet:** Supplied attached to leg.
- **4 Adjustable Height Shelves.**
- **Extra Shelves Available.**
- **Rust Resistant.**
- **Dishwashable:** Shelf slats are easy to remove which makes cleaning a breeze. Wipe clean any spills or just pull out and wash in the sink.
- **Suitable for temperatures from -38°C to 88°C.**
- **Completely Versatile:** Mix and match sizes and depths to fully maximise the space in your coolroom. Corner attachments mean fewer posts allowing for better access.
- **Patented Locking System:** Ensures the unit carries the weight required in any kitchen.
- **Please contact us for more configurations.**

COMPONENTS

- Shelf** Aluminium rail, plastic slats: 75mm (edge) to 60mm (middle) wide
- Post** 35 x 35mm aluminium post
- Feet** Adjustable up to 30mm

610mm Deep

HOW TO CREATE 'U', 'L' OR STRAIGHT CONFIGURATION

'U' Shape: To create a 'U' shape configuration you will need 2 complete bays and additional shelves for the middle of the 'U' shape. When connecting the complete bay to the shelf you will need a pair of corner connectors and 2 slats with slots at each end of the shelf. Confusing? We have made it easier for you – simply order a connection pack to fit the depth of each complete unit.

'L' Shape: When connecting the 1st Bay to the Extra Bay to create a 'L' shape you will need 1 connector pack for the depth of the 1st bay. The connector pack contains 2 Corner Connectors and 2 Plate slats with slots for each shelf.

Straight: Simply add your extra bay to the end of the 1st Bay. No Extra parts are required.

UPGRADE OPTIONS

- **Castors or Heavy Duty Castors:** Create a mobile unit.
- **Connector Pack:** Create L-shape or U-shape configuration by using connectors.
